

Henry Ford

Henry Ford (July 30, 1863 – April 7, 1947) was an American industrialist and the founder of the Ford Motor Company. Although Ford invented neither the automobile nor the assembly line, he developed and manufactured the first automobile that many middle-class Americans could afford. In doing so, Ford converted the automobile from an expensive curiosity into a practical conveyance that would profoundly impact the landscape of the 20th century. His introduction of the Model T automobile revolutionized transportation and American industry, and as the owner of the Ford Motor Company, he became one of the richest and best-known people in the world.

Interesting quotes from Henry Ford:
